

FIND MORE INFORMATION AND RESOURCES ON...

An upcoming workshop on “*what to do
when you think your work is causing harm*”

A full database on the *military ties of
companies at this career fair*

More resources for *organizing against
the science-military-industrial complex*

BUT I NEED A JOB. WHAT AM I SUPPOSED TO DO?

While there are blatantly evil companies/institutions that
proclaim their war aims,

THERE IS NO ETHICAL PRODUCTION UNDER THE REGIME OF PROFIT.

We should choose not to work for companies that
directly profit from and contribute to war, but individual
choice has limits. We all need a job, and we can't change
the system as individual actors. In order to dissociate
science and engineering from the profit motive...

—ORGANIZE WITH US!—

To help each other **maintain our humanity**
and apply our conscience against the
misapplications of technology.

To fight against our precarity and for control
of the technology we make – not for profit
and war, **but for the common good.**

To **teach and learn from one another** – we
know a lot more about these technologies
than the managers, and we don't need them.

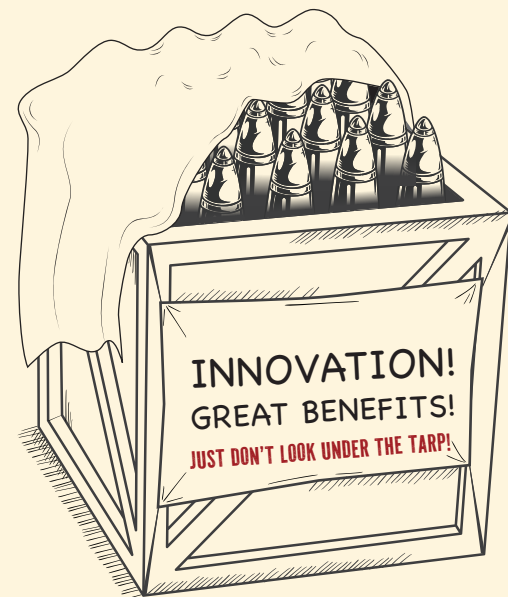

To learn to practice science and engineering
with a **deeper understanding of society** as
well as our place within.

HOW WELL DO YOU REALLY KNOW YOUR FUTURE EMPLOYER?

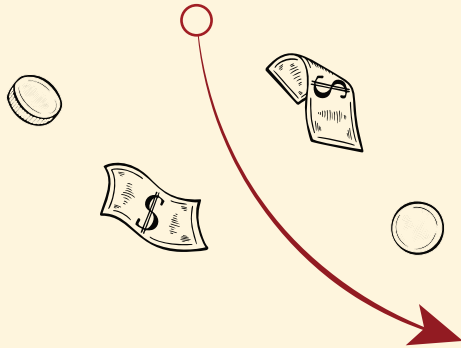

PAMPHLET DEVELOPED BY SCIENCE FOR THE PEOPLE

AS A WORKER-FOR-HIRE, DO YOU KNOW WHAT YOUR WORK IS ACTUALLY USED FOR?

INVESTMENT & FINANCE SECTORS

fund the purchase of technology, production equipment, and workers to incentivize the war-industrial pipeline...

OUR SOCIETY PRIORITIZES CONTINUOUS GENERATION OF PROFIT—FROM INVESTMENT TO R&D TO SALES AND FINALLY MORE PROFIT— AT THE COST OF HUMAN LIVES AND THE ENVIRONMENT.

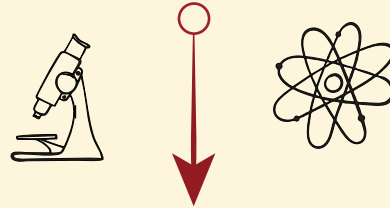

Isn't scientific research inherently neutral?

Ask: Who is funding this research?
Who is harmed?

Scientific research is never apolitical. Under a capitalist system, **research is dictated by what is most profitable: war.** Resulting harm is treated as acceptable collateral damage.

RESEARCH & DEVELOPMENT

including laboratories and companies focusing on **artificial intelligence, robotics, and biotechnology** generate the knowledge necessary to develop new weapon technology that serve the profits of capitalists and US imperialism.

THE MODERN SCIENTIFIC-INDUSTRIAL COMPLEX IS GUIDED BY WHAT IS **MOST PROFITABLE:**

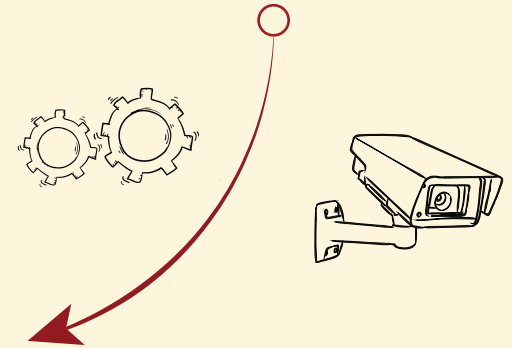

WAR.

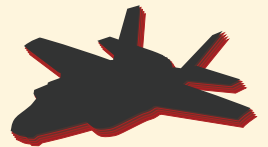

WAR IS OUR SOCIETY'S BIGGEST INVESTMENT EXACTLY BECAUSE IT DRIVES THE CREATION OF NEW TECHNOLOGY, THE SALES OF WHICH DOMINATE GLOBAL TRADE. WAR AND PRODUCTION FOR WAR ALSO DIRECTLY **EXTRACT NATURAL RESOURCES FROM CONFLICT ZONES AND EXPLOIT HUMAN LIVES EVERYWHERE.**

MANUFACTURING & LOGISTICS

streamline the exploitative human labor practices that use extracted resources to manufacture and distribute new weapon technology

THESE SECTORS COLLABORATE TO KEEP POWER CONCENTRATED AMONG THE RULING CLASS WHILE WORKERS HAVE NO CONTROL OVER TECHNOLOGIES THAT WE OURSELVES MAKE.

What's so bad about workplace efficiency?

Ask: Efficiency to what end?

Efficiency is a code word for squeezing more productivity out of workers. It writes off dignity and human and planetary rights and health as **the cost of doing "good" business.** Those who control labor can control anything, from office work to war.
